

The Learning First Alliance is committed to ensuring all students have access to a high quality public education. At a time when education policy may be momentarily distracted from the rich history of our public schools and the roles they play in preparing our next generation to succeed, Public Schools Week 2019 seeks to change the dialogue around public education. We encourage every educator, student, parent and community member to leverage their social media accounts to foster conversations and strong actions to allow public schools to provide the best support to students.
